

*Where History Meets Progress*

# ***Our Purpose***

***This book was created to show you what Barnesville, a small town in south eastern Ohio, has to offer. Barnesville is a historical village, but it has many new developments to offer to it's citizens.***

***With a beautiful park, great community services and facilities as well as excellent schools. What more could you ask for in a small town? We have a hospital, airport, police department, fire department, water department, stores and shops, restaurants, and great people. Barnesville has invested in excess of \$10 Million to provide for the future.***

***Barnesville history shows that it has positioned itself to not only take care of it's residents, but has prepared itself to provide for the future of not only Barnesville, but Belmont County and all of Eastern Ohio.***

***Barnesville continues to grow. So, we invite you to visit our community, or even more, become a part of it!***
